

National Capital Business Park Leasing Opportunities

Avenue31

National Capital Business Park (NCBP) is a 40 ha (100 acre), master planned, state-of-the-art, industrial and logistics park located in the heart of the National Capital Region in Ottawa. Developed under a 49-year ground lease with the National Capital Commission (commenced January 1, 2020), the Park features numerous sustainability initiatives for site and building design, intended to assist tenants in meeting their climate change goals and objectives. The park also enjoys flexible and permissive zoning that permits a wide range of industrial uses, including outside storage.

The full buildout of the NCBP will see eight new buildings constructed across the park, resulting in approximately 120,774 m² (1.3 million ft²) of new business industrial floorspace. We have completed three buildings containing 41,300 m² (445,000 ft²). The completion and opening of Last Mile Drive in Fall 2022 provides a direct connection between the park and Highway 417 via Hunt Club Road.
